The cool looking blue ring around the adapter is for adjusting the filter, but the main concept of this adapter is for manual use only, thus the reasonable price. This means manual only focusing of a lens. Essentially, this adapter is just a way to bolt a lens to camera without any other form of communication.

Canon EF/EF-S. The EF mount is the successor to the FD mount and is purely electrical, so Canon EF (-S) lenses, even most of the manual focus ones, need an adapter with electronics in order to being able to change the aperture. Most of these adapters also offer AF and support the lenses' IS (if available).
