The Haynes Service and Repair manual for the Piaggio Vespa Scooter.

A service and repair manual with generic model coverage, suitable for 50 to 250cc scooters with carburettor engines. Includes a data section on the following models Aprilia SR50 (94-99), Rally 50, Sonic FT and GP, Leonardo 125.

With a Haynes manual, you can do it yourself...from simple maintenance to basic repairs. Haynes writes every book based on a complete teardown of the vehicle. We learn the best ways to do a job and that makes it quicker, easier and cheaper for you. Our books have clear instructions and hundreds of photographs that show each step. Whether you're a beginner or a pro, you can save big with Haynes!

What is God? Why do we suffer? How can we heal ourselves and our world? What is the purpose of life? What happens when we die? What is the best way to pray? When you understand the way God works, you'll understand the answers to these questions and more. Master Waysun Liao takes you to the inner teachings of Tao wisdom, giving you the keys to its ancient mysteries in simple terms applied to modern life in today's world. Enjoy common sense analogies, humor, diagrams, and passages from texts such as Lao Tzu's Tao Te Ching as you start your own Tao journey with Master Liao as your guide. With Tao: The Way of God, you will unlock the secret to the power of God, the spiritual dimension, and break beyond the limits or our man-made artificial world. Once you know Tao as the Way of God, you will never be the same.

With fuel costs and parking charges it's no wonder the consumer is looking for less expensive forms of travel. This book is aimed at the rider who wants to do his or her own basic scooter maintenance and servicing without the need for in-depth mechanical knowledge, or a technical manual. It covers areas such as oil, brakes, tyres, transmission, electrics, etc, allowing the owner to address the most regularly serviced items without forking out for additional costs. Illustrated with full colour photographs throughout, and featuring clear, easy-to-follow instructions, this book is a must-have for scooter users.

Author of Honda Mini Trail: Enthusiast's Guide, Jeremy Polson has put together another vintage Honda guide. It covers the third-best-selling Honda in American Honda history, the long-running Mini Trail CT-70, along with the CL, SL, and XL 72-cc motorcycles manufactured from 1969 to 1994. Polson begins with a brief introduction of the models that led to the first CL-70, and then jumps into a thorough analysis of the many models and iterations that Honda offered through the years. With more than 25 years of experience collecting, restoring, and selling more than 200 small-displacement Hondas, Polson is the ideal author for this must-have look at a group of Honda's most popular motorcycles. Despite the worldwide popularity of American Honda's 72-cc motorcycles, no other book on these models has been published, and the accuracy of information found on the Internet is suspect at best. It could be called the "Bible for Honda 72-cc collectors and enthusiasts," because this book presents facts and figures backed up by production dates, serial numbers, and dealer information found nowhere else. In addition to the hard facts, this book is filled with many rare photos that track the evolution of Honda's 72-cc motorcycles and unravels their mystery. Rare models covered include the first CT-70 "Silver Tags" with more than 30 features not found on the majority of later-model CT-70s, as well as many other low-production 72-cc motorcycles.

The past - ecological background; Ecological perspectives; Land, nature and people; Life conditions and biopsychic state in early Hong Kong; The present - Hong Kong in the 1970s; Conceptual framework; Modern Hong Kong - an overview; Extrasomatic energy; Energy in the Hong Kong food system; Nutrients and water supply in Hong Kong; The built environment and transportation; The population; Material aspects of human experience; Social relationships and some important intangibles; Behavioural aspects of human experience; Environment, life style and health: problems and principles; The future - human ecological imperatives; The future of urban settlements; Life conditions check list; Common behavioural tendencies; Biosocial survey.
