Originally published: The big ship: the story of the S.S. United States. Newport News, Va.: Mariners' Museum, 1981.

A Harvard-educated historian and advisor to the S.S. United States Conservancy documents the story of innovative ship designer William Francis Gibbs, describing the breakthroughs that enabled him to craft high-performance ships of unprecedented versatility. 50,000 first printing.

The Big Ship: The Story of the S.S. United States is the behind-the-scenes story of one of the fastest ships in the world and one of the most luxurious passenger liners to cross the Atlantic. Follow Frank Braynard as he chronicles the life of the S.S. United States, the incredible feat of engineering that still holds the westbound speed record on the North Atlantic. --from publisher description.

This colourful history covers the SS United States' active service from 1952 to 1969 when she dominated the seas of Atlantic, sweeping all rivals before her. The astonishing operational capacity of this national icon of the United States, with her red, white and blue funnels, sleek streamlined hull and silver coated fittings, was shrouded in secrecy in case she was ever required to be converted to a troop carrier. Andrew Britton presents a revealing insight into the record-breaking liner, how she performed in the secret sea trials and her epic maiden voyage. Compiled from a wealth of previously unpublished material, drawn from the author's own unparalleled collection and others from around the world, this special commemorative book is packed with historical colour photography from both sides of the Atlantic, including the maiden voyage departure from New York. This evocative book will be a must for all shipping enthusiasts and is sure to enhance the fine reputation of the preserved SS United States for future generations.

The story of the world's fastest passenger liner, from Blue Riband winning maiden voyage to abandonment in Philadelphia and her possible restoration as the most famous ocean liner of the post-war period.
