State of Fear dramatizes the human and societal costs a democracy faces when it embarks on a war against terror, a war potentially without end, all too easily exploited by unscrupulous leaders seeking personal political gain.

~~State of Fear (2005) - IMDb~~

State of Fear is centered around a plot by eco-terrorists to bring world attention to global warming by, you guessed it, blowing up half the world. Yes, the nonsensical plot that makes up the spine of this book leaves the rest of this skeletal narrative in the hands of a man we've rarely seen: Michael Crichton, political philosopher.

Fear can create strong signals of response when we 're in emergencies – for instance, if we are caught in a fire or are being attacked. It can also take effect when you 're faced with non-dangerous events, like exams, public speaking, a new job, a date, or even a party. It 's a natural response to a threat that can be either perceived or real. ...
