enlightened her. He made her see how brutal the government is and how brutal many of the top officials are. In one of his examples, he mentioned the merciless brutality of a colonel. It was her father. He didn't know that it was her father. One day he found out about her identity and got very scared as he thought she might have been spying in undercover. He left the country illegally crossing the border where the rule is shot to kill anyone who tries to flee the country. This is a story of these lovers. He tries to get out of the risk for his life. In the process he faces unbelievable tribulations. He falls into the hands of inhuman human-body parts dealers in Sinai, Egypt. It is a multibillion business that involved people from different walks of life, including top officials and executive businessmen. The colonel's daughter does whatever it takes to liberate her lover. Will she manage to save him? Or will they slaughter him alive? Will they see each other again?

critical approaches to African literature. The Routledge Handbook of African Literature is a one-stop publication bringing together studies of African literary texts that embody an array of newer approaches applied to a wide range of works. This includes frameworks derived from food studies, utopian studies, network theory, eco-criticism, and examinations of the human/animal interface alongside more familiar discussions of postcolonial politics. Every chapter is an original research essay written by a broad spectrum of scholars with expertise in the subject, providing an application of the most recent insights into analysis of particular topics or application of particular critical frameworks to one or more African literary works. The handbook will be a valuable interdisciplinary resource for scholars and students of African literature, African culture, postcolonial literature and literary analysis. This is the first complete English translation of Bealu Girma's classic. Originally published in 1983 in Ethiopia, the novel served as a critical account of the Red Star Campaign, the Communist Derg

government's attempt at a final comprehensive victory over the secessionist rebellion in Eritrea. A passionate and turbulent story of love and war, Oromay mocked high-level members of Ethiopia's communist regime and criticized the Derg's actions in Eritrea. The criticism contained in this incisive political allegory put Bealu in considerable danger owing to the repressive environment in which it was published. The novel was almost immediately banned after publication. Government officials attempted to confiscate all available copies but bootleg versions continued to circulate. In the aftermath, Bealu was fired from his job in Ethiopia's Ministry of Information and a few months later disappeared. It is generally believed that he was abducted and killed on the orders of government officials in retaliation for Oromay. Bealu's life had a dramatic arc of its own. Born in rural Ethiopia to an Ethiopian mother and Indian father, he was a graduate of Addis Ababa University and later studied journalism in the United States. In addition to serving as editor of several of Ethiopia's most respected magazines and newspapers (including Addis Zemen and The Ethiopian Herald) he also worked as a civil servant in Ethiopia's Ministry of Information. This position allowed him access to government officials during both the Imperial and Communist governments. Prior to Oromay, he wrote five other popular and critically-acclaimed Amharic-language novels: Beyond the

Horizon, The Bell of Conscience, The Call of the Red Star, Haddis, and The Author. His integrity as a journalist, courageous criticism of repressive regimes, and martyrdom to the cause of literary freedom make him a significant figure in modern Ethiopian history and Amharic literature.

Ethiopia in the Wake of Political Reforms brings together contributions from a multi-disciplinary team of over twenty scholars and practitioners with acknowledged expertise in the areas of political and economic reform, federalism and nation building, as well as foreign and security policy.

This book shows how Eritrea and East Timor developed sophisticated strategies to liberate their countries from colonialism, and emphasizes that these insurgencies avoided terrorism.

other(s) can obliterate the bond of togetherness and create the insecurity of life. Ethiopia, which is home to anthropologically diverse ethno-linguistic groups, exhibits a proclivity to ethnic-based hostilities and conflicts. As a result of such hostilities, Ethiopia had suffered recurrent small- and large-scale deaths, and in the last half decade only millions have been internally displaced and live in dire conditions. In dialogue with perspectives from a wide range of disciplines such as history, law, sociology, philosophy, theology, and political thought, this multi-authored book aims at generating Christian moral resources for peaceful multiethnic togetherness. This interdisciplinary engagement is meant to buttress the task of interpreting ethnic diversity and national unity within both contemporary and historical Ethiopia, and articulating a Christian moral response to the crisis of togetherness ensuing from the malpractices of affirming ethnic identity and enacting national unity.
